

Spring Day!

October ~ 2009 ~ woodwork shop

Dear Supporters,

This is our October on-line Itipini newsletter. We hope you enjoy it. Please feel free to contact with questions about the project. We would love to hear from you!

We have a new woodwork shop !. It is our goal to make it a self sustaining project ,incorporating recycling and assistance for our learners.

We are collecting broken, discarded desk and chair bases and revamping them , putting on new wooden tops.

We have three men from Itipini working there,;

Our children who attend the government school up the hill are delighted to have desks and chairs. Here you see them happily carrying them up the hill.

Thanks for all your support—it really does make a difference.

Sincerely,

Jenny McConnachie

Project Coordinator
